ANNUAL REPORT OF 2024-25

Warm regards and thanks to everyone for the kind of support you have shown to the school and its concerned. I am very pleased to say that making the move to **Gyan Vihar World School**, Jaipur has been a wonderful decision and I am enjoying all that the school year has presented me with every passing day.

About School:

Gyan Vihar World School is built in spacious 10 acres lush green campus. It has a huge sprawling playground with all sports facilities. The school is fully equipped with digitalized smart class rooms, along with all facilities and World-class infrastructure to complement the academic process and extra-curricular activities.

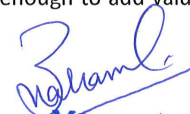

Vision:

To create an extra-ordinary environment for learning, achieving academic excellence, to be the best in sports and to create global citizens. Gyan Vihar World School is going to revolutionize the school education system as we emphasize on practical knowledge over memorizing textbooks. Gyan Vihar World school will produce virtuoso individuals equipped with problem solving skills, leadership traits, scientific temperament, sense of citizenship and the will to excel in their chosen fields. Our aim is to focus on large-scale ecological issues by learning outside the classroom alongside nature and its various natural phenomena to inculcate a pre-disposition towards self-learning. Students will be taught self-discipline while developing a sense of humanity as a lifelong practice to propel them to greater heights.

Mission:

To create and nurture our students with best knowledge, exemplary leadership, empathy and gratitude that makes them stronger to face the challenges in life. The world poses new problems and challenges everyday and to overcome those we have created an interdisciplinary model of pedagogy that creates broader horizons and brings out the best in our students. Our aim is fostering all-round development of students through multi-faceted education and sustained engagement with local, national and global communities, and nurturing lifelong inspired learners from across the globe in line with our cultural ideal of 'Vasudhaiva Kutumbakam'. Gyan Vihar World School will take your wards through a unique and tailor-made journey of unmatched academic growth, extensive socio-emotional development, a major personality overhaul, optimum physical fitness, purposeful conscientiousness, intellectual refinement, much-needed morality and the inherent joy in learning. We will be working on the intelligence quotient, emotional quotient, curiosity quotient and adaptability quotient of our wards so that they become the best versions of themselves, reach their latent potential, uncover their natural proclivities, learn new skill sets, leverage opportunities and adapt to the imminent changes of the future which will make our students capable enough to add value to the community and the world.

SCHOLASTIC

At Gyan Vihar World School the Academic Year 2024-25 started on April 2024. The school has accommodated students from play group to Grade X.

The curriculum that is followed is completely CBSE based. The lesson starts with an activity. The class room teaching methodology includes Pen and Paper test, Quiz, model making etc. There is an audio and video with PPT that are being projected and also making them a part of the curriculum. The children are given the complete Kinaesthetic knowledge so that the child is aware and gets the complete concept thoroughly.

The children are also exposed to the AI knowledge, coding as their Skill subject, As per the level the books and the curriculum has been Chosen so that the child is ready to meet the competitive world.

CO-SCHOLASTIC

This area has always been playing a vital role as it goes hand in hand with the Academics. The huge sprawling ground helps the child to develop interest towards sports in different areas like Tennis Football, Basketball, Volleyball and cricket. The indoor games include Chess, Carrom Board and Table Tennis.

ART & CRAFT

This area helps the child to develop the subject in an integrated way. The child can develop the skill of art while learning the subject and integrating it with other subjects and create his/her skills giving a shape to a model or an art form or a presentation.

'Change is inevitable, only growth is optional.'

It is so true that change is inevitable in all aspects of our lives, especially here at school. New shade sails go up; spaces are rearranged; new curriculums are presented; other ideas are introduced; different opinions are offered; other decisions are made; old families leave; new Families arrive; old technology leaves; new technology arrives; some staff leave; some staff arrive; kids win some friends and kids lose some friends.

Championship for children—a sacred! privilege...

I am passionate about my role as a principal and I am passionate about the opportunity I have as a leader in this school to champion for children. I think if we understand our duties-as parent, teacher or leader, as a most sacred privilege then it really helps us to appreciate the sacredness of our work as parents and educators, and the responsibility we all have fulfilling this role to the very best of our ability..

Thanks & Regards,
